

Lynchburg Lions Support School

The Lynchburg Lions Club has made a special donation to the Lynchburg-Clay Elementary School. Lions Clubs everywhere have been challenged to conduct a special "Fall Into Service" project that is completed in October. The Lynchburg Club purchased curriculum materials for the first grade's "Nocturnal Animal Unit" and they also provided funding for five pairs of shoes for students in need. The funding for these and many other community service projects comes from the Club's annual candy sale that is conducted each year during November and December.

Lynchburg Lions to have Candy Sale

The Lynchburg Lions Club will have its annual candy sale beginning in mid-November and running through December. The sale will be conducted at the Republican Headquarters Building in Hillsboro and the Southern Hills Community Bank in Lynchburg. Candy varieties and prices will be available soon.

Lynchburg Lions Present Magnifiers

The Lynchburg Lions Club recently presented eight Full Screen Magnifiers to the Lynchburg Library. The Lions are known for their community service projects. Sight saving, eye care, and eye research are major priorities of Lions Clubs worldwide. The Lynchburg Club purchased four magnifiers that have 4X capability and four additional units that have 3X capability. These units were placed in the Library where they will be available to anyone. These units are one of many service projects made to the community by the Lynchburg Club. The money generated for these donations came from the Club's annual candy sale.

The magnifiers were presented to Elaine Williams who is the manager of the Lynchburg Branch of the Highland County District Library. They will be available to anyone who has vision impairment and who needs magnification to read or better see other items.
